PROJECT COMPLETION AND APPRECIATION

Dear Supplier,

We thank you for the project you have undertaken for us. The Radiation Safety Consultancy is working well in our system. We appreciate your team in delivering all of our requirements on time without any delay. Beside that, you have customer focus in helping us to import the Radioactive Cs-137 phase of Subsea Wet Gas Flow Meter.

We will consider a long term relationship with such excellence service from you in the future.

Yours sincerely

Pupung Wahyu Purnaman
